PROFESSIONAL EXPERIENCE

Anderson Consulting

Security Analyst

Jun. 2024 - Present

- Developed and implemented comprehensive cybersecurity policies in alignment with the NIST SP 800-171 framework, ensuring compliance with federal regulations and standards.
- Conducted detailed risk assessments and identified security gaps, leading to the creation of targeted mitigation strategies and policy updates.
- Collaborated with cross-functional teams to design and deploy security controls that enhance data protection and information system security.
- Trained staff on NIST SP 800-171 requirements, promoting awareness and adherence to cybersecurity policies and best practices.

BlueOval SK

Dec. 2023 - Present

Cybersecurity Specialist

- Developed and implemented data loss prevention (DLP) strategies and policies in alignment with ISO 27000 series frameworks, significantly reducing data breach incidents.
- Conducted comprehensive audits to ensure compliance with ISO 27001 standards, identifying vulnerabilities and recommending remediation measures.
- Designed and executed training programs to educate employees on DLP best practices and ISO 27000 compliance requirements, fostering a culture of security awareness.
- Collaborated with internal and external stakeholders to develop and enhance cybersecurity policies, ensuring they meet regulatory requirements and industry standards.

Dyersburg State Community College

Jan. 2019 - May 2020

Helpdesk Analyst

- Resolved technical issues for end-users by troubleshooting hardware and software problems, ensuring minimal downtime and optimal system performance.

- Provided timely and effective support through various channels, including phone, email, and in-person, resulting in high customer satisfaction ratings.
- Documented and tracked support requests using ticketing systems, maintaining accurate records and ensuring issues were addressed in a timely manner.
- Collaborated with IT teams to identify recurring issues and implement solutions, improving overall help desk efficiency and user experience.

Holly Grove Church

Jan. 2018 - Jan. 2023

IT Specialist

- Managed and maintained IT infrastructure, including servers, networks, and workstations, ensuring optimal performance and security.
- Implemented and monitored cybersecurity measures to protect organizational data and systems from threats, enhancing overall security posture.
- Provided technical support and troubleshooted complex IT issues for end-users, leading to increased productivity and reduced downtime.
- Collaborated with cross-functional teams to develop and execute IT projects, aligning technology solutions with business objectives.

EDUCATION

- Master of Science, Cybersecurity, Austin Peay State University
- Master of Science, Finance, Austin Peay State University
- Graduate Certificate in Risk Analysis, Austin Peay State University
- Bachelor of Science, Cybersecurity, Austin Peay State University
- Associate of Applied Science, Networking, Dyersburg State Community College
